

Hi! It's our April news

We enjoyed lots of Easter Eggs

We sampled a variety of breakfasts

Thank you for all the vouchers from Tesco

What's been happening?

Easter Holidays

Fitness Freddy

St George's Day

Earth Day

Cooking with eggs

Enjoying the garden

Exercise and fresh air

Barbara, our talented, experienced and enthusiastic speech and language therapy assistant has returned after a long illness. Our Communication group is now focusing on a theme about Peter Pan and Barbara has already supplied us with an exciting new range of resources. Thank you to her and also to Ellie who very kindly volunteers her spare time to play the piano each week.

News from our class—MS2

A big thank you to our parents not only for the Tesco vouchers but for providing the information for the communication passports and for sending in sun cream.

Your support is much appreciated.

We have been experiencing different ways of cooking with eggs this month. We have had, fried eggs, poached eggs, french toast and smoked salmon and scrambled eggs. Most of our class enjoyed these extra breakfasts and everyone took part in the preparation. Patrick, Chelsea and Peter were interested in ex-

ploring the properties of the egg shells while Oliver, Jake and Aaron were busy having second helpings We acknowledged St George's Day on the 23rd by sponge painting a template of his flag.

On the 22nd it was Earth Day - a day to consider our planet.

We had a very large amount of junk material to explore, sort and recycle (with help). Oliver is now going to manage our recycling project until the end of term. He is focusing on plastic bottles and paper and with support from the staff and his peers he will be filling the special con-

tainers in school.

On the 20th we all took part in an exercise programme with 'Fitness Freddy' who spent the day at school. Our 'slot' was early in the

morning and we were encouraged to get very active. It was a fun filled session making the exercise so enjoyable. Highly recommended! Now that some warmer weather has arrived we have turned our attention to the garden. Everyone has contributed to the weeding by either helping to pull them up or helping to dispose of them. The garden is looking well

Physical Activity

We had a lovely time at the Ark Farm this month with an escorted tour of the premises.

We have also enjoyed two visits to Stormont park. For the second visit we walked there and caught a bus back to school. A very kind driver allowed all eleven of us to travel free of charge!

During PE lessons this term we are experiencing some new dance steps. Oliver and Jake are quite amused by the new routine while Patrick and Peter accept prompts to take part. Chelsea wants to do her own version of the dances and Aaron prefers to stand back but will take part providing he doesn't have to go round in

circles!

Home made kites kept us busy in the park one day. We hope to repeat the experience on another windy day.
